-

Experience

UI / React js Developer

Resourceone IT solutions from June 2022 to April 2026 | Hyderabad

Frontend Developer with 3.10 years of experience in designing and developing responsive, scalable, and user-friendly web applications using React.js, JavaScript (ES6+), HTML5, and CSS3. Strong expertise in building reusable components, implementing React Hooks, managing state efficiently, and integrating RESTful APIs. Experienced in optimizing performance, improving UI/UX, and ensuring cross-browser compatibility. Adept at working in Agile environments, collaborating with cross-functional teams, and delivering high-quality, maintainable code.

Projects

US BANKING APPLICATION

Duration: Feb 2023 – Nov 2023

Technologies: React.js, JavaScript, HTML5, CSS3, Redux, REST APIs, Git

- Developed a secure banking application for account management, fund transfers, and transaction tracking.
- Built responsive and reusable UI components using React.js.
- Integrated REST APIs for authentication, account operations, and transaction management.
- Implemented features including user login, account dashboard, beneficiary management, and transaction filtering.
- Optimized state management to improve application performance and user experience.

FEDEX SHIPPING & TRACKING APPLICATION (Support Developer)

Duration: Jan 2024 – Jul 2024

Technologies: React.js, JavaScript, HTML5, CSS3, REST APIs, Git, Jira

- Provided application support and maintenance for a shipment tracking and logistics management system.
- Monitored application performance and resolved production issues to ensure high availability.
- Investigated and fixed frontend bugs, UI inconsistencies, and API integration issues.

- Collaborated with cross-functional teams to support shipment tracking and delivery management features.
- Assisted in release support, incident management, and production deployments.

REAL-TIME CHAT APPLICATION (MERN STACK)

Duration: Aug 2024 – Oct 2024 *(or Personal Project, if applicable)*

Technologies: React.js, Node.js, Express.js, MongoDB, Socket.IO, JavaScript, HTML5, CSS3, Git

- Developed a full-stack real-time chat application using the MERN stack.
- Implemented instant messaging functionality using Socket.IO for real-time communication.
- Built secure user authentication and authorization modules.
- Developed responsive and reusable React components for desktop and mobile devices.
- Enabled chat history persistence, online/offline status indicators, and typing notifications.
- Integrated REST APIs and MongoDB for efficient data management and storage.

Education

Bachelor of Science (B.Sc.) in Electronics

Sri Krishnadevaraya University, Anantapur, Andhra Pradesh

Percentage: 86%

Graduated: November 2021
