UI / React js Developer

Resourceone IT solutions • Hyderabad
06/2022 - 04/2026

Frontend Developer with 3.8 years of experience in designing and developing responsive, scalable, and user-friendly web applications using React.js, JavaScript (ES6+), HTML5, and CSS3. Strong expertise in building reusable components, implementing React Hooks, managing state efficiently, and integrating RESTful APIs. Experienced in optimizing performance, improving UI/UX, and ensuring cross-browser compatibility. Adept at working in Agile environments, collaborating with cross-functional teams, and delivering high-quality, maintainable code.

Languages

Telugu, Hindi, English

Projects

US Banking Application

Developed a web-based banking application that allows users to manage accounts, view transactions, and access banking services securely. Built responsive UI components using React.js and integrated backend APIs for real-time data.

FedEx Shipping & Tracking Application – Support Developer

Provided application support for a shipment tracking system developed using **React.js**, **JavaScript**, **HTML**, and **CSS**. Assisted in monitoring application performance, resolving UI issues, and supporting API integrations to ensure smooth tracking and delivery status updates.

Real-Time Chat Application (MERN Stack)

Developed a real-time chat application using **React.js**, **Node.js**, **Express.js**, **MongoDB**, and **Socket.IO** enabling instant messaging and real-time communication between users. <https://github.com/Govardhan0020/MernchatApp.git>
